OFFICE ORDER

Whereas India generates about 9.4 million tonnes of plastic waste each year and with no effective disposal method, the plastic waste ends up on the roadsides, in landfills and water bodies. Plastic waste management is a global concern. Globally, around 90% of the plastic produced is discarded as waste.

And Whereas, plastics are non-biodegradable and cause threat to the ecological system as they reduce the fertility of the soil and thereby hamper the growth of plants, choke drains and sewer;

And Whereas, plastic products take hundreds of years for degradation, as they are not biodegradable, they also block rainwater infiltrating into the soil hindering recharge of ground water;

Therefore, w.e.f 16.10.2019, the use of the following plastic products is banned in the premises of GST Bhawan, CGST Commissionerate, 'F' Block, Rishi Nagar, Ludhiana:

1. Polythene carry bags of any shape, thickness and size;
2. Bottled drinking water Polyethylene Terephthalate(PET/PETE) bottles;
3. Single use disposable cutleries made up of thermocol (Polystyrene), polyurethane and the like ;
4. Thermocol decorative materials;
5. Single use plastic items such as dish, spoon, cup, plate, glass, fork, bowl.

This issues with the approval of Principal Commissioner.
